Doug Moore 1028 Fiddlers Way spoke in opposition to the request citing recent appraisals of his property in the vicinity of the Brooks property that indicated a negative impact on property values due to business development in the residential area. Ronnie Bledsoe spoke in opposition to the request citing prior opposition documented at the November 17, 1992 planning commission meeting. Staff noted that the reduction in size of the Brooks

Page 4

property zoning request did not lessen the negative impact on the predominantly low density residential neighborhood and that the proposed business use remained the same as that considered at the November 17, 1992 planning commission meeting. Staff noted that conditions in the area had not changed since November 1992 and recommended the requested rezoning from R-1 to B-3 be denied based on the same reasoning presented at the November 17, 1992 planning commission meeting - i.e., the existing business is operating in violation of the zoning resolution and is incompatible with existing residential development in the neighborhood.

Motion by Eldreth, second Teague to deny request 11/92-1 as recommended by staff; vote in favor of the motion: unanimous, the motion carried.
